Members on the (Blog)Spot is a monthly feature of member businesses of the Clive Chamber of Commerce. If you are interested in having your business featured, contact kschmidt@clivechamber.org.

Baker Electric Inc. specializes in electrical contracting for commercial, industrial, institutional, residential, network cabling, and underground installations. Baker Electric, Inc. is ready to take care of all the commercial, industrial, residential, technological, traffic, and underground electrical needs of consumers all over Central Iowa. Providing non-stop 24-hour service, every day of the week, Baker Electric is eager and ready to serve you.

Baker Electric has a recent and well-documented history. Company founder Gene Baker started working for Furlong Electric in 1935, right after he graduated from high school. "He started by answering the phones, and driving the delivery truck, until he gradually began estimating," writes granddaughter Lisa Baker. "Furlong did a lot of service work on the big signs on hotels, and Gene started repairing and making neon tubing for these signs. He had been working with tools for about a year when he joined the service during World War II," Lisa continues. "He went back to work at Furlong Electric upon his return from the war. In 1948, Gene and Furlong changed the company name to Furlong and Baker." A few years later, when Furlong passed away, the company name was then changed to Baker Electric and then incorporated in 1960. Baker Electric has been around for over 60 years, satisfying many customers in the Des Moines Metro area.

Baker Electric, Inc. became a member of the Clive Chamber in January of 2011. "We joined because we think it is important to stay involved with the community," writes Lisa Baker. Baker Electric has built many close relationships with customers in their community and, as a result, they have become one of the largest electrical contractors in the Midwest. They value all of their customers, and they provide the same attention to detail on all projects, no matter how big or small.

"We enjoy working with our clients and coming up with solutions for each and every project," states Lisa Baker. Quoting Gene and Britt Baker, she continues, "We are proud of the Company we have built together, along with our management team and valued employees, and we look forward to growth in the years ahead. We are most grateful for our customers and friends who have contributed to our success and have helped the company grow for the past 60+ years."
