Clive, IA 50325

Ducharme Dermatology serves the needs of lowans of all ages looking for the very best in care for their skin, hair and nail concerns. With all patients seen by board-certified dermatologist, Erin Ducharme, MD, FAAD, the clinic provides a full complement of medical, surgical and aesthetic dermatological services. Dr. Ducharme's expertise spans a variety of ailments including skin cancer, hair loss, aging & sun damage, acne & acne scarring, psoriasis, rashes and more. Since skin conditions can be complicated and are commonly misdiagnosed, Ducharme Dermatology believes that patients should seek the care of a board-certified dermatologist to ensure they receive proper care.

Ducharme Dermatology was founded in September 2018 with the idea of providing access to a full suite of dermatological services delivered by a board-certified physician to meet the needs of the growing community. Although they are a relatively new clinic, Dr. Ducharme has been serving lowans since 2013 and is proud of the work she has accomplished.

Ducharme Dermatology has been a member of the Clive Chamber since 2018 when they opened their business. Erin Ducharme expressed "The Chamber is a great advocate for local businesses and keeps us well informed of events and engagement opportunities in Clive".

Dr. Ducharme and her nurse team love the daily patient interactions and helping relieve patients of their most challenging dermatological concerns. Patient feedback so far has highlighted the excellent care and listening provided by Dr. Ducharme, the friendly front office and nursing teams, and the brand new building. They encourage everyone to come and check out the facility and meet the staff! To learn more about Ducharme Dermatology, visit their website at ducharmedermatology.com.
