Walnut Ridge

Members on the (Blog)Spot is a monthly feature of member businesses of the Clive Chamber of Commerce. If you are interested in having your business featured, contact kschmidt@clivechamber.org.

Walnut Ridge, a senior living community stands firm on providing their residents the freedom to live well. Walnut Ridge offers a full continuum of living options from independent living, assisted living, assisted living memory care and long-term care. Lynda Ferguson shares "Walnut Ridge has enjoyed the trust of families for generations. In part, because we've offered freedom from the ordinary, by reshaping the landscape of senior housing and services." She goes on to explain "But that's not the only reason. An unwavering commitment to our resident's total well-being keeps our focus where it belongs."

One of the best parts for their residents and something that makes them unique is their mission. Their goal is to honor God by enriching the lives and touching hearts of older adults. Needless to say they've also created a vision to provide more choices and opportunities for older adults to live well. They truly make their community not just another place to live, but a place to live your best life.

Presbyterian Homes began in 1946 when a committee came together to investigate the matter of a home for the aged in Minnesota. In 1955 the first senior residence was built by Presbyterian Homes of Minnesota. Today, over 7,000 employees serve 27,000 older adults through the 50+ PHS affiliated senior living communities in Minnesota, Wisconsin and Iowa.

Walnut Ridge became members of the Clive Chamber, when opening their doors in 2008. They joined looking to network and build relationships with other businesses in Clive. "Knowing that the Clive Chamber is an advocate for local businesses made this decision an easy one" shares Lynda.

With focus on their residents well-being, they are also your life partner for health and wellness. Their staff will work with each person individually to create a plan catered to them. Walnut Ridge features a wellness center; The Ridge Club is well appointed with high quality fitness equipment that is specifically designed for older adults as well as a multi-purpose warm water pool.
