A New Look Exteriors specializes in roofing, siding, window, concrete, and gutter replacements, along with having immense knowledge in garage door and door replacements. They strive to be innovators in the construction industry by bringing 'A New Look' to their projects. Something special about them is that they are a custom company that focuses on providing every customer with a unique experience based on their exact needs. They only utilize the best products that are built to last a lifetime and continue to expand their services and knowledge. Additionally, they value continuing educational opportunities to stay up-to-date, and have the best practices in the industry.

Originally Justin Williams, the owner of A New Look Exteriors, opened the business as a window company. As the years have gone by, they have expanded their expertise into roofing and siding to provide specialized services for their customers. As a company, they have interviewed dozens of manufacturers, contractors, and salespeople to carefully and purposefully build and craft their team and offerings, as well as having installers with all qualifications and lots of experience. Justin has over 20 years of experience in the construction field and their sales team has over 50 years of experience! A New Look serves anyone who is looking to complete any home improvement products and works directly with homeowners within a 50-mile radius of Des Moines.

A New Look just recently joined the Chamber! They want to get more involved in the community and learn more about what they can do in the community. Anna SmolikHagen expresses "we love supporting other small-businesses, and we have noticed that the Clive Chamber values this as well!"
