Members on the (Blog)Spot is a monthly feature of member businesses of the Clive Chamber of Commerce. If you are interested in having your business featured, contact kschmidt@clivechamber.org.

• Interstate All Battery Center (IABC) is a battery business that serves retail and commercial customers. They offer the best quality and customer service on an incredible range of battery-related products and services including:

- Vehicle Batteries
- Power Backup Batteries
- Mobility Batteries
- Marine Batteries
- Golf cart Batteries
- Watch/key fob Batteries
- General Batteries

• They keep your portable power devices running and they also take dead batteries for recycling.

• In 1998, the first Interstate All Battery Center store opened and offered a world of power solutions for all facets of life. IABC was launched to fulfill consumers' growing appetite at home and in business for portable power with their top-quality products and legendary service. From the smallest hearing aid battery to the huge industrial equipment battery, they provide quality products and services for all the ways people live, work and play. Today they remain true to their commitment of continuously seeking new ways to deliver the most trustworthy products and services to customers now and for generations to come!

• Selling batteries and power-related products may be what they do, but it's far from who they are. IABC holds firm to the same defining Interstate culture of one team united by a Servant's Heart that guides the way they work together, engage with their communities and serve their customers. Business owner, Brian Weber states, "We do our best to go above and beyond for our customers every day."

• IABC became a member of the Clive Chamber just recently in November of 2022. They are very active in the community and love to support local events and schools with any battery-based needs.

• Whether you're visiting the area or a longtime resident, IABC has batteries and services for all your needs! Want to learn more? Call 515-255-9572, email iabc@iabcdsm.com, or visit their website www.interstatebatteries.com. Go to an All Battery Center today and let them show you the difference.
